2011	30,020	17,572	883,045	--	--	1,769,921	102.9	103.2	49.9
2012	30,539	17,764	923,413	--	--	1,822,808	104.5	104.5	50.7
2013	30,819	18,003	962,100	--	--	1,892,193	105.5	106.1	50.8
Growth rates:									
1986-2013	1.26	1.44	4.78	--	--	4.87	2.35	2.40	-0.08
1989-2000	1.00	1.12	4.21	0.09	0.56	4.64	2.24	1.99	-0.42
2000-2008	1.47	1.73	5.07	0.34	0.79	5.19	2.27	2.81	-0.12
2008-2013	0.46	0.82	3.25	--	--	2.74	1.48	1.30	0.50

Sources and notes (for all panels A through K of Appendix Table 1):

A: Available at <http://stats.oecd.org/> under Productivity.

B: Available at <http://stats.oecd.org/> under Productivity.

C: Available at <http://stats.oecd.org/> under National Accounts.

D: Series computed from microdata obtained from the Luxembourg Income Study. Observations from the source are in italics; other values are interpolated values using compound annual growth rates between two nearest observations. Deflated by the CPI in column G.

E: Series computed from microdata obtained from the Luxembourg Income Study. Observations from the source are in italics; other values are interpolated values using compound annual growth rates between two nearest observations. Deflated by the CPI in column G.

F: Available at <http://stats.oecd.org/> under National Accounts.

G: Available at <http://stats.oecd.org/> under Prices and Purchasing Power Parities.

H: Computed from nominal and real GDP series drawn from <http://stats.oecd.org/> under National Accounts.

I: Ratio of series in column C and column F.

Series from the OECD are for the total economy.

Series from the Luxembourg Income Study excluded the self employed because of issues separating their labour income from capital income.
